I. DELINQUENT BILLS – CHARGES

Delinquent bills shall be subject to an interest charge at the rate of 18% per annum, which interest charge shall begin accruing on the 5th day after a bill becomes a Delinquent Bill, as such term is defined in the District’s Operating Policies and Procedures.

J. SECURITY DEPOSITS

Deposits required for Service shall be (1) calculated at three (3) times the average monthly charges for Potable Water, Reuse and Wastewater Service at a location where service has previously been rendered, such monthly average to be determined over the most recent consecutive 12-month period where service was rendered; or (2) at locations where service has not been previously rendered, three (3) times the estimated average monthly bill at the location, based on the size and consumption of comparable properties served by the District. The calculation of the amount of the deposit due shall be in the sole and complete discretion of the District.

Additional deposits may be required from any Customer if such Customer’s Service has been previously disconnected at any location served by the District due to nonpayment or as a result of a tampering violation together with payment of any outstanding sums owed by Customer to the District for Service as set forth in the District’s Operating Policies and Procedures. The amount of the additional deposit shall be two (2) times the average of the last two monthly bills sent to the Customer or the last bill if only one billing is available.

M. EFFECTIVE DATE

Rates, fees or charges reflected herein are effective for bills and service rendered after October 1, 2011. Notwithstanding the prior sentence, the Meter Tampering Fee provided in Section O herein shall be effective as of October 5, 2022.

N. PASS-THROUGH ADJUSTMENTS

Water and Wastewater User Fees:

Beginning April 1, 2010, the user rates for water and wastewater customers will be automatically adjusted to reflect any changes in the rates the Toho Water Authority charges the District under the Large User Agreement between the parties. The adjustment may be either an increase or a decrease to each block of consumption, and will remain in effect until the next adjustment by Toho Water Authority. This pass-through adjustment will only apply to user rates, and not the base facility charge.

Reuse Base Facility Charge Pass Through:

Beginning December 1, 2009, the Reuse Base Facility Charge will be automatically adjusted to reflect any changes in the rate that the Toho Water Authority charges the District under Toho Water Authority's Reuse Meter Charges. The pass-through adjustment shall be calculated as follows:

$$\text{Adjustment} = \text{Existing ECDD Reuse Base Facility Rate} \times [1 + (\% \text{ Change in Toho Reuse Meter Charge} \times .53)]$$

$$\text{Where: } \frac{\% \text{ Change in Toho Reuse Meter Charge}}{\text{Charge/Prior Year Toho Meter Charge}} = (\text{Current Toho Meter Charge/Prior Year Toho Meter Charge}) - 1$$

This adjustment may be either an increase or a decrease and will remain in effect until the next adjustment by Toho Water Authority.

Reuse User Charge Pass Through

The gallonage charge for reuse (including the gallonage charge for large users) will be automatically adjusted to reflect any changes in the gallonage rate the Toho Water Authority charges the District. The automatic adjustment will take effect no later than 60 days after the revised rate is charged to the District in order to provide for orderly implementation into the District's billing system.

The water, wastewater and reuse pass through adjustments may be taken into account whenever the District undertakes a more comprehensive rate study which may result in additional changes to the user or base facility charges otherwise automatically adjusted.

O. METER TAMPERING FEE

In the event of damage, tampering with, or altering the District's Facilities as further provided in the District's Operating Policies and Procedures, including but not limited to Section 39, the District may assess a Meter Tampering Fee of \$300 per violation. Meter Tampering Fees may be assessed in addition to any other fees, deposits, and/or remedies available to the District, including but not limited to the District's Operating Policies and Procedures, Rate Schedule, or Section 812.14, Florida Statutes, or as otherwise provided by Florida law. The Customer is responsible for any fines, fees, or charges.
